

Find Patterns in Nature at the Palm House

Name:

Patterns in nature can take lots of different forms. Patterns are repeating shapes, lines, colours or movements.

Have a go! Can you find some of these patterns here at the Palm House?

Circle the patterns you can find. Add mini drawings to show where you could find them in nature.

Branching
tree branches

Mini drawing of
this pattern...

Layers
different parts of soil

Mini drawing of
this pattern...

Spirals
a snail shell

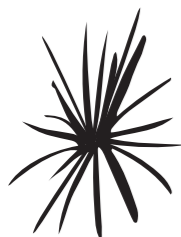

Mini drawing of
this pattern...
